Description about enterprise:

The company ELME MESSER GAAS is the leading gas company in the Baltic region. Founded in 1999 as a joint venture between A/S BLRT GRUPP (Estonia) and MESSER GROUP (Germany).

Why exactly us?

1. We - the first who built in the Baltic region (in 1999), a modern air separation plant producing liquid oxygen, nitrogen, argon!
2. Every product that we offer our customers is available from at least two different production sites - high security of supply!
3. We offer everyone the factors of success of our customers: 120 years of experience in the gas market, reliable partnerships, the best quality / price ratio, excellent distribution and our ambitions!

Valid certificates:

ISO 9001:2015, ISO 14001:2015, OHSAS 18001:2007, ISO 22000:2005

Products

Industrial, food and medical gases are indispensable in a large number of sectors and applications. ELME MESSER GAAS supplies them on a customised basis and develops innovative application options.
